

The logo for the Society for International Endometrial Oncology (SIEOG) is a red square with the letters "SIEOG" in white, bold, sans-serif font.

**SIEOG**

The background of the poster is a deep blue. It features a stylized, translucent illustration of a woman's profile on the right, looking upwards. On the left, there are translucent images of a hand holding a baby's foot and another hand holding a baby's head. The overall theme is fetal growth and development.

### ***Dear Colleagues,***

Alterations of fetal development are a constant concern in the context of obstetric care, since they are the basis of serious consequences for the health of newborn.

For this reason we decided to organize an **International Congress on Fetal Growth**, to be held in Palermo next **14-16 April 2016** at the NH Palermo, under the auspices of SIEOG.

During the Congress, recent scientific evidences will be discussed and debated by national and international speakers, the recommendations of "best practice" and the issues that emerge from the research with particular highlight to management of the different forms of restriction and excessive fetal growth.

Specific attention will be given to the phenomenon of intrauterine death and influence of maternal nutrition on fetal growth.

A very important moment of the Congress will be dedicated to the **oral presentation from young researchers and students**.

It will be a unique opportunity for all of us compare with the experts from all over parts of Europe.

We are sure that the participation to this event will give the chance to spend some days of intense and constructive work with the opportunity to establish new scientific collaboration and new friendly relationship, as well as have some time to spend, before or after the congress, to visit Palermo and its beautiful monuments.

Looking forward to welcoming you in Palermo
