**HOT TOPICS & CONTROVERSIES
IN FETO-MATERNAL MEDICINE**

**2nd
edition**

Magazzini del Cotone | Genova

HOT TOPICS & CONTROVERSIES IN FETO-MATERNAL MEDICINE ²nd edition

CNS 1. New insights into 1st trimester neurosonography

- Fetal Neurosonography. How to... in the 1st trimester
- **LIVE DEMO 1.** The early anatomy of the fetal brain: screening & diagnosis
- Significance of ventriculomegaly in the 1st trimester
- What sign is more sensitive for open spina bifida
- The posterior fossa landmarks in the 1st trimester
- DWM vs BPC: are we there yet?

CNS 2. The spine LIVE DEMO 2.

- Closed spinal defects. Differential diagnosis @ US
- Closed spinal defects. Differential diagnosis @ MRI
- Closed spinal defects. Surgery and outcome

CNS 3. Malformations of cortical development

- **LIVE DEMO 3.** How to screen for cortical malformations
- CPC and malformations of cortical development: any relationship?
- From lissencephaly to polymicrogyria
- **Debate.** Do we have to change counselling for mild ventriculomegaly?

Hot topics in feto-maternal medicine 1. Late IUGR

- **Special Lecture.** Definition & controversies: roadmap to the TRUFFLE2 and guidelines
- Expert advice for monitoring growth in the 3rd trimester
- When to deliver? The OB view
- When to deliver? The NEON view

Update on adequacy of prophylaxis for major condition of pregnancy

- Neurogenetic counselling and new prophylaxis recommendations for NTD
- Thrombophilia. Key mutations and correct prophylaxis in pregnancy and puerperium
- p-PROM, infections and antibiotics. What's new
- Neuroprotection with magnesium sulphate in preterm delivery. Fact or fiction?

Fetal Hydrops and genetics

- NIHF in the 1st trimester
- 2nd and 3rd trimester NIHF and management
- Rasopathies. Definition and correlation with fetal phenotype
- Importance of necropsy/placental evaluation

Fetal heart.

- **Set-up and differential diagnosis**
- **LIVE DEMO 4.** Fetal echo: A to Z

- How to boost your Color Doppler investigation
- Univentricular heart: tricuspid atresia, single ventricle, HLHS
- When is tricuspid regurgitation clinically relevant?
- The small left ventricle: from severe coarctation to Shone syndrome
- Isomerism made (relatively...) easy

Hot topics in feto-maternal medicine 2. Preterm delivery & p-PROM

- Clinical scenarios and audience attitude. A problem solving voting session
- **Special Lecture.** Prevention of preterm delivery in singletons and twins
